**Subject:** Westview high school environmental club Fashion Show

You don't often get email from [whsclimatechangeadvocates@gmail.com](mailto:whsclimatechangeadvocates@gmail.com). [Learn why this is important](#)

Hello,

My name is Alanya Abou-Elmajd and I am the President of Westview High School's Climate Change Club (CCC). Our club is based on making the climate better and introducing methods of sustainability in the community. Currently, we are planning on hosting a completely student-led, district-wide sustainable fashion show and thrift swap by collecting clothes around schools and executing a way for anyone to learn how sustainable fashion is not only better for the environment but also promotes a method to combat the climate effects of fast fashion. *Countdown to Change: Sustainability on the Runway* will take place on April 26th, from 7-9 PM at Westview High School. My team and I warmly invite **Oregon Climate Action** to advertise and attend our Fashion show. We ask that you help advertise our event by posting the flier to your social media linked below as well! We would love for you to attend our event and be part of making a difference in saving our climate and promoting awareness of sustainable fashion!

Thank you so much,

Alanya Abou-Elmajd and CCC Board

**Subject:** Styrofoam use and food waste in refuse cans in Oregon

**Message:** Dear Commission, I realize there are many issues and things to be addressed in the up-coming meeting. What I have noticed is the continued use of Styrofoam containers in establishments such as my parents assisted living quarters. I have also spoken to many people whom don't understand the impact of food waste in their garbage. I'm not sure how to educate them or how to emphasize how to discard these food wastes in the yard recycle bin but hope you can find a way. <3 Thanks for all you do! Vicki
